

HOW THE WAVES WILL WORK

The procedure for the start will be as follows:

MASKS MUST BE WORN AT ALL TIMES. They may be removed once you cross the start line and are on the course.

Several WAVES will be marked on the pavement of Trexler Ave, depicting the start positions for the various WAVES.

Each WAVE will be comprised of 10 participants.

Each wave will have a 25' buffer zone between them.

As pictured above, at 8:00 the gun/horn will sound, and WAVE 1A will start the race.

As soon as WAVE 1A vacates the start line, all successive WAVES will move up in position (WAVE 1B will take the position of WAVE 1A, WAVE 1C will move into the position vacated by WAVE 1B, etc).

At 8:01 the gun/horn will sound again, and WAVE 1B will begin their race.

It should be noted that your personal time will be calculated as the difference between crossing the start line and finish line.

It is very important that your timing BIB be worn on the front of your person. DO NOT wear it on your side or back.

Timing error can occur when the BIB is not worn on your front, which would mean your results may not register.

When WAVE 1B departs, all of the successive WAVES should move forward to occupy the positions of the wave previously in front of them. This will continue until all runners are on the course.

Also after WAVE 1A departs onto the course, WAVE 2A should go to the end of the line and occupy the space vacated by WAVE 1E

If you do not get into one of the initial WAVE, please stand off to the side (keeping socially distanced from others), and move into a spot at the end of the pack as they open up.

WHICH WAVE ARE YOU IN

In order to keep with the IDPH and CDC guidelines, WAVES had to be changed from 100, TO 50 to 25, and now to 10. As a result, it has created the need for a work around.

When you receive you BIB (race number), there will be a label on it that will tell you your wave number. Each WAVE has been split into multiple sub groups, with WAVE 1 having 8 groups of 10.

WAVE 1 is now divided into WAVE 1A, WAVE 1B, WAVE 1C, WAVE 1D, WAVE 1E, WAVE 1F, WAVE 1G and WAVE 1H.

The same goes for WAVE 2, 3, 4, 5 and 6, there will be sub groups of A,B,C,D,E, etc.

Unfortunately we were not able to assign the sub-group letter (A,B,C,etc) to the WAVES, only the WAVE number. on them. As a result, it will be up to participants to pick a spot in the waves on a first come basis.

Please fill in all spots in all WAVES. For participants or families that want to stay together, this method provides the option to do so.

As of today, there are 29 waves, which means the last wave will be starting at 8:28AM.
